-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. This application has been examined. Claims 1-4 are pending.

#### *Claim Rejections - 35 USC § 103*

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. The factual inquiries set forth in *Graham v. John Deere Co.*, 148 USPQ 459, that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or unobviousness.

4. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Viragh. Viragh shows means for water retention 12, means for securing the water retention means to the floor 30, 36, and means for water passage 18. The claim appears to be a composite method/apparatus claim and it would have been obvious to one of ordinary skill in the art that water that rises through the basement trap 14 would pass through “drain cover” 12 and “flexible conduit” onto the yard of the house.

5. Claim 4 is rejected under 35 U.S.C. 103(a) as being unpatentable over Viragh in view of Huber et al. Viragh discloses the claimed invention except for the recitation of a plurality of line

condition blocking means as taught by stops 103. It would have been obvious to one having ordinary skill in the art to at the time the invention was made modify the flood relief device of Viragh to include to condition blocking means , as taught by Huber et al in order to prevent water from running onto the basement floor if a backup occurs.

***Allowable Subject Matter***

6. Claims 1 and 2 are allowed.

***Conclusion***

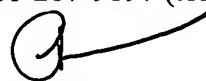

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note the patent to Amundson et al who discloses the use of adhesive to bond the "flood relief device" to the existing drain by adhesive (column 3, lines 21+).
